Portfolio: <https://naveencivil1.github.io/cv/>

PROFILE SUMMARY

FE Civil certified engineer with hands-on experience supporting civil design workflows, construction coordination, and field-based engineering verification. Strong understanding of structural design principles, designing and site development practices. Skilled in interpreting engineering drawings, validating field conditions, and ensuring alignment between design intent and execution. Proficient in AutoCAD, Civil 3D, Revit, ETABS and Primavera P6.

TECHNICAL SKILLS

Design & Modeling: AutoCAD | Civil 3D | STAAD Pro | Revit | Navisworks | Bluebeam | ArcGIS | ETABS

Project & Construction Management: Primavera P6 | MS Project | Procore | Cost Estimation & Quantity Take-offs | Scheduling | OSHA 30 | MS Excel | Team management | Safety Control | Risk management

Civil Engineering & Field Inspection: Post Tensioning | Nuclear Density Gauge | Foundation & Reinforcing Steel Inspection | Structural Quality Control | ASTM & AASHTO Standards | Geotechnical Principles

EXPERIENCE

Field Engineer | Terracon Consultants, Inc | Dallas, Texas- USA

Sep 2025- Present

- Perform field inspections of post-tensioning, foundations, reinforcing steel (rebar), and earthwork activities to ensure work is completed according to project plans and specifications.
- Conduct density and soil testing to evaluate site conditions and support construction requirements. Monitor construction activities and verify compliance with project drawings, specifications, and applicable standards.
- Collect, document, and review field data to support engineering evaluations and project reporting.
- Work closely with contractors, engineers, and project teams to communicate field observations and address construction-related issues. Prepare field reports and technical documentation to support quality control.

Construction Project Manager | AA Maintenance Services LLC | Akron, Ohio- USA

May 2025- Aug 2025

- Developed cost estimates, schedules, and project documentation for commercial and residential projects.
- Coordinated with site teams to ensure work progressed according to approved plans & project requirements.

Junior Civil Engineer | Sugadhi Constructions and Consultancy | India

2018 – 2019

- Performed structural drawing interpretation & specification checks to support project requirements.
- Supported material planning, quantity take-offs, and quality inspections while coordinating with project teams to maintain compliance with design and construction requirements.

ACADEMIC PROJECTS

Southwood Plantation Road Realignment Project (Tallahassee, Florida)

2023

- Developed multilane highway alignment using Civil 3D in accordance with AASHTO roadway design standards.

Analysis and Design of Residential Building (G+4) Using STAAD Pro and AutoCAD

2021

- Performed structural analysis & reinforced concrete design using STAAD Pro, plans & 3D models in AutoCAD.

EDUCATION

Masters in Project Management and Technology | Campbellsville University | KY, USA

Jun 2023 – Mar 2025

Key courses : Project Management, Team Management, Disaster Recovery Planning and Management, N & CM.

Bachelors in Civil Engineering | JNTUH | India

Jun 2019 – Aug 2022

Key courses – Structural Analysis, Concrete Structures, Surveying, Irrigation, Hydraulics and Transportation.

Diploma in Civil Engineering | SRTIST | India

Jun 2016 – Apr 2019

Key courses – Strength of Materials, Surveying, Quantity Surveying, Environmental Engineering, CM & CP.

CERTIFICATIONS

- Fundamentals of Engineering (FE)- passed
- Valid Driver's License, IIF rules, Smith 5 keys
- HeartSaver First Aid CPR AED Certification
- American Concrete Institute (ACI) Certification
- OSHA 30 (Occupational Safety and Health Administration)
- Construction Project Management by Columbia University (Online)
- AutoCAD, Revit, Primavera P6 & Nuclear Density Gauge

ELIGIBILITY

Eligible to work in the United States of America with valid work authorization | Willing to Relocate
